

HIMSS NCA Monthly Program Series

***Cybersecurity Through Multi-Party
Environments: A Federal
Perspective***

October 17, 2024

Welcoming Remarks

***Maria Gaboury,
HIMSS NCA
President***

Maria Gaboury is an established health information technology expert. She has over 25 years of success, in delivering high-value solutions to Federal Health agencies including the Department of Defense (DoD)/Defense Health Agency, Department of Veterans Affairs (VA), U.S. Department of Health and Human Services (HHS), as well as, commercial organizations. She is a growth-focused leader for Federal health IT business development, capture, and operations. Ms. Gaboury joined InterSystems Corporation in May 2019 and manages strategic accounts within the North American Sales group. She develops and executes the company's overall Federal Health BD strategy, as well as internal and external partnerships, business plans, and associated marketing for the Defense Health and civilian health agencies.

Ms. Gaboury earned her bachelor's degree in Medical Technology at Loyola University and her master's degree in Information Management at Marymount University.

AI & Cybersecurity Update

Oct 17, 2024

Vision

To realize the full health potential of every human, everywhere..

Mission

Reform the global health ecosystem through the power of information and technology.

Agenda

- Artificial Intelligence
- Cybersecurity
- Questions & Answers

Artificial Intelligence

Artificial Intelligence Public Policy Principles

Safe & Trusted AI/ML: Policies should focus on responsible governance and monitoring, ensuring AI tools are equitable and free from bias.

Clinician & Consumer Trust: AI tools must provide explainability and maintain fairness.

Feedback Loop: Regulatory frameworks should allow users to report AI performance issues.

Patient Privacy: AI/ML systems must protect patient data with clear privacy standards.

Interoperability: Standards should ensure AI/ML technologies integrate seamlessly.

Workforce Development: Support for AI skill-building in healthcare professionals is crucial.

Cybersecurity

Cybersecurity

Questions?

Meet Our Moderator

**Mr. Bob Basanti, CISSP, CISM,
CRISC**

**Senior Cyber Security Advisor for
the Healthcare and Public Health
Sector at HHS ASPR**

Bob Bastani is the Senior Cyber Security Advisor for Critical Infrastructure at the Administration for Strategic Preparedness and Response (ASPR). He also co-leads the government-wide cybersecurity coordinating council for the Health Sector and the Joint Healthcare and Public Health Sector (HPH) Cyber Security working group. In his role, Mr. Bastani works with federal government, state, local, tribal and territorial (FSLTT) entities and public and private owners and operators of critical infrastructure. He also works with healthcare and public health facility managers in order to improve the sector's cyber security risk posture. Prior to HHS, Mr. Bastani worked for IBM in various cyber security leadership and advisory roles where he held consultancy relationship with senior industry and agency executives.

Mr. Bastani holds a BS in Electrical Engineering, MS in Business Technologies and a number of industry certifications including CISSP, CISM and CRISC.
